# Purchase of *STAR*

The semimonthly issues and the cumulative index issues are available postpaid on subscription and in single copy from the Superintendent of Documents, United States Government Printing Office, Washington, D.C., 20402, United States of America.

*Semimonthly issues.* Annual subscription rate: $33.00, domestic; $42.00, foreign. Price per single copy: $2.25, domestic; 25¢ extra for foreign mailing.

*Cumulative index issues.* Annual subscription rate: $30.00, domestic; $35.00, foreign. Price per single copy varies according to the number of pages.

*Domestic subscription rates* apply to the United States, Canada, Mexico, and all Central and South American countries, except as noted below.

*Foreign subscription rates* apply to Argentina, Brazil, British and French Guiana, Surinam, British Honduras, and all other countries throughout the world.

Payment should be by check, money order, or document coupons, and must accompany order. Remittances from foreign countries should be made by international money order, or draft on an American bank, payable to the Superintendent of Documents, or by UNESCO book coupons.

# SPECIAL NOTICE

**The abstract sections of the semi-monthly *STAR* journals can be bound separately. Individual abstracts can be located readily by means of the page numbers given at each index entry, e.g. 21 p 4190. To assist the user in binding *STAR* Volume 4, four (4) title pages are included in the back of Section I of the Annual Index.**

# Introduction

This Annual Index is an edited consolidation of the indexes to the individual issues of *Scientific and Technical Aerospace Reports (STAR)* for the calendar year 1966 (Volume 4, Numbers 1 through 24). For the convenience of the user, it is divided into four sections, each bound separately. Sections I and II contain the Subject Index. Section III contains the Personal Author Index. Section IV contains a Corporate Source Index, a Contract Number Index, a Report/Accession Number Index, and an Accession Number/Report Index. The Annual Index supersedes the semimonthly and quarterly indexes previously issued during 1966.

Each entry in this index includes an accession number, e.g., N66-12345, a unique identification number assigned by NASA to each document that was acquired, indexed, and announced in *STAR* during the year. In addition to the accession number, each entry includes a second number consisting of two groups of digits, e.g., 13 p1217, to assist the user in locating a particular abstract in *STAR*. The first two digits identify the issue in which the document was announced, and the last four digits refer to the page number in that issue on which the abstract appears.

Prior to announcement in *STAR*, each reference is indexed by a number of carefully selected subject terms. In the listings of references that appear in the Subject Index, the subject of each reference is summarized by a brief Notation of Content (NOC) rather than by its original title. The Corporate Source Index and the Personal Author Index list the title of the report under each author or source.

For information on availability of *STAR* and documents, see Section I or II, pages iii, iv, and v.

SCIENTIFIC AND TECHNICAL AEROSPACE REPORTS VOLUME 4, NUMBERS 1-24

TYPICAL PERSONAL AUTHOR INDEX LISTING

The title of the document provides the user with a brief description of the subject matter. The report number helps to indicate the type of document cited. Issue number, page number and accession number are included to assist the user in locating the abstract in the abstract section of *STAR*.
